Components & Radicals 汉字偏旁部首	(SCH/TCH) yào = important; want	(SCH/TCH) yāo = waist
^{xī} 西 = clerical-script transformation; modern meaning: west	要	腰
^{nǚ} 女 = a woman		
^{yuè} 月 = flesh; meat		
Note: In plain language, “要/腰” means that when one places one’s hands at the center of one’s body, that central part is the “waist.” Some scholars believe that since the “waist” is a vital part of the human body, it was referred to as “要” in ancient times. Modern Chinese dictionaries classify “西” on top and “女” below. The evolution of the upper part into “西” is the result of “clerical script transformation.”	yào diǎn zhǔ yào zhòng yào yào shén me 要点; 主要; 重要; 要什么;	yào diǎn zhǔ yào zhòng yào yào shén me 要點; 主要; 重要; 要什麼;
