

1. 请观察这幅图，感受其中的意境，并说出你看到了哪些基本元素。 Please observe the image, appreciate its imagery, and describe its main visual elements.

2. 请说明偏旁部首与图片的关系。 Please explain how the components and radicals are represented in the image.

xuě	yún	shuāng	báo	léi	diàn
雪	云	霜	雹	雷	电
(SCH) snow	(SCH) cloud	(SCH) frost	(SCH) hail	(SCH) thunder	(SCH) lightning
雪	雲	霜	雹	雷	電
(TCH) snow	(TCH) cloud	(TCH) frost	(TCH) hail	(TCH) thunder	(TCH) lightning
Below freezing, water vapor crystallizes into feather-like ice crystals that drift down from the sky.	The “rain” radical represents atmospheric moisture; clouds are masses of water vapor drifting across the sky.	Water vapor crystallizes as frost, whitening and withering plants on the ground.	The top is the “rain” radical; the three round forms below represent falling hailstones.	During a thunderstorm, powerful thunder rumbles across the rice field.	During a thunderstorm, sharp flashes of lightning illuminate the rice field.
